

# Jump Start Your Business in 2010

At BigHelp, we realize that as busy professionals we sometimes need to schedule a specific time and place to work **on** our business instead of **in** it.

To help you do that, we've designed a fun filled day of learning, activating and setting your 2010 goals and intentions!

Don't feel like you have to go it alone or do it all yourself! If you don't know which idea to begin working on, bring them all. If you have a business plan (finished or not) bring it along too!
